**ADDITIONAL INFORMATION**

Press down push-button manually to dispense a measured amount of liquid soap. Valve is operable with one hand, without tight grasping, pinching, or twisting of the wrist. Vandal-resistant spout can rotate 360° without damage the unit. Dispenser is refilled by using the special refill key to unlock the escutcheon and remove the valve body with dip tube from the shank. Unit may also be filled by removing container from below lavatory.
